Thank you for your interest in Home Retirement Services™.

Home Retirement Services™ has provided seniors with choices during times of need. With our customized services, individuals from all walks of life can maintain their independence while staying in the home they love with dignity and trust. Home Retirement Services will ensure that each individual is treated like our own family and we will ensure that we provide a quality of life with compassion.

Although you have health concerns that need to be addressed, your budget is also an important part of your decision in receiving care. We take this into consideration when designing your personalized care plan and ensure that your care is maximized while costs are minimized.

Our home and health care services can be offered individually and always includes 24-hour supervision from our experienced care Managers. Each service can be scheduled on any day and can be increased or decreased as desired.

In addition to our customized individual services, we also offer Service Packages and Programs designed for your situation and we will provide an individualized solution for your needs from home care, personal care to health care. These all-inclusive packages can help make your decision very simple. Whether you are coming home from hospital and could use our Hospital Discharge Package or living alone and could use our Peace of Mind Package, we have a tailored program designed just for you!

We have enclosed an information package on our values and services. Your personalized care starts with a friendly, no charge, and in-home assessment to discuss your needs and preferences. Call us when you are ready - we look forward to meeting you and listening to your concerns.

If home is where you want to be, then Home Retirement Services™ can help.

Sincerely,

**Home Retirement Services™ Family**
